

Lowest cost credit card processing for Saint Louis Auto Dealers Association Members.

At the Saint Louis Auto Dealers Association® we understand that credit card processing is a large expense item for auto dealers, which is why we are pleased to announce our latest member benefit through **Veteran Payment Systems**. SLADA is partnering with **Veteran** to offer our members the lowest cost for credit card processing along with the most reliable service possible.

Here are some of the reasons why **Veteran Payment Systems** should be your choice for credit card processing:

Interchange Plus Pricing The pricing model, normally reserved for the big box chain stores, is a full disclosure of all visa/MC costs as well as the profit margin of the credit card processor.

Significantly Lower Cost We've negotiated a cost which is dramatically lower than what is in the marketplace today. A typical dealership can see cost savings of 20%–50%.

Local Personalized Service Veteran has local representatives who will assist you in evaluating your pci compliance, processing procedures and pricing.

Rate Guarantee No teaser rates that creep up over time. No hidden fees.

100% Check Card Rebates Receive the full Visa and MC check card rebates that were intended for you and your dealership.

Use of Existing Equipment Or simple upgrades.

My Merchant Data Our secure online service allows you instant access to all your account information, including batches, deposits, statements, interchange rates, chargeback and much more.

Easy-to-read Statements Help summarize your Credit card activity.

Contact SLADA today for a risk-free cost analysis and demonstration.
